

Homeless Prevention Services  
RFP # 21311  
FAQ #2  
April 3, 2024

**Question #1**

**Question:**

Does the county plan to provide additional, separate funding for assistance to clients? Or does any client direct assistance also need to be included in the proposal and fall within the \$568,711 allocated for this program?

**Answer:**

The allocation of funds within this RFP will include assistance to clients. Lane County Health and Human Services is unable to provide information outside of this RFP, for separate funding opportunities. Within the Homeless Prevention Service Program RFP, the anticipated funding of \$568,711 will be allocated and divided amongst the six programs listed on page 10 and 11. A clear and compressive outline of existing and anticipated services related to homeless prevention by service area and category will help determine allocation amounts.
