Caption 10 words which reasonably identifies the subject of the measure.

Amends Charter, changes method for electing mayor and city councilors.

Question 20 words which plainly phrases the chief purpose of the measure.

Shall Charter be amended to eliminate primary elections for mayor and councilors and elect them using the STAR Voting method?

Summary 175 words which concisely and impartially summarizes the measure and its major effect.

This Charter amendment replaces the current method of electing mayor and councilors with the STAR Voting method.

Currently, all mayoral and councilor candidates are voted on in a May primary election; if a candidate receives more than 50% of the votes, the candidate runs unopposed in the November general election. If no candidate receives more than 50% of the votes, the top two candidates run against each other in November general election.

This Charter amendment adopts the STAR Voting method, an election process where: 1) all candidates are voted on at November general or special election; 2) voters score each candidate on a scale of zero to five, multiple candidates can have same score (no score equals zero); 3) scores are totaled for each candidate; 4) "finalists" are the two candidates with highest total scores; 5) finalist preferred by the most voters is elected to office.

This amendment requires City to include information about the STAR Voting method on the ballot and Council to adopt an ordinance to administer elections using STAR Voting.
