## Lane County Sheriff's Office

Serial Number Record

Serial numbers can be used to identify lost or stolen property, and to distinguish it as yours. For items that do not have serial numbers, you may choose to mark them on your own. An Owner Applied Number (OAN) can be any series of numbers or letters. <u>Avoid</u> using personal information as the owner applied number, such as a social security number. You may also elect to take photographs of items listed, and other items of value to you, showing the item as well as the serial number on the item. Make several copies of this form after it is complete and store the copies in separate and secure places. Do not turn this form into the Sheriff's Office, it is for your records.

Item	Brand	Model	Serial Number	Color	Other Markings (Including owner applied)
