Summary 175 words which concisely and impartially summarizes the measure and its major effect.
The City is responsible for maintaining a street system that provides safe and reliable travel, and supports business. Existing funding is inadequate to address the backlog of street repair and preservation projects. A 2015 street condition report determined that 51% of Springfield's streets are in poor condition. The proposed tax increase would raise approximately \$1.1 million per year and would be dedicated to the reduction of the backlog of street repair and preservation projects.
Approval of this Measure would increase the tax rate on motor vehicle fuel sold, used, or distributed in the City from 3 cents per gallon to 6 cents per gallon. An annual report would be published to document projects funded by the increased fuel tax revenue. 119
