

TO:	Board of County Commissioners
DEPARTMENT:	County Administration
PRESENTED BY:	Judy Williams, Strategy and Integration Manager
DATE:	March 20, 2019
AGENDA ITEM TITLE:	Annual Update on the 2018-2021 Lane County Strategic Plan

I. MOTION N/A

II. AGENDA ITEM SUMMARY

The Board approved the 2018-2021 Lane County Strategic Plan on March 20, 2018. There have been two quarterly updates presented to the Board since adoption. This update is an annual update in the form of a work session. The reason for this work session is to a) hear about updates on progress, b) provide an opportunity to make edits to any existing key activity areas and c) discuss any additional key activity areas necessary to reflect the known direction of the Board of Commission and the Executive Team.

III. BACKGROUND/IMPLICATIONS OF ACTION

A. Board Action and Other History

In June of 2017, we began a competitive process to solicit proposals for assistance with our new Strategic Plan effort. After further review, it became apparent that we needed to redefine the objectives and solicit a second round of Request for Proposals. In December of 2017, after thorough review, including background research, interviews, and follow up reference checks, we signed a contract with Portland State University to complete strategic planning services for Lane County.

December 12th -13, 2018, four focus groups were conducted with employees and community members. On January 3, 2018, we had a Strategic Plan kickoff meeting with the Board of Commissioners, department directors, and other key management staff. On January 8, 2018, we launched an employee survey. We had a great turnout from the Employee Survey, nearly half of our workforce participated. On January 22, 2018, we released a community survey. A Spanish version of that community

survey was also made available.

A presentation to the Board in a work session format took place on January 24, 2018. A Draft Framework of the 2018-2021 Plan was presented to the Board at that time. Following that presentation, open houses for both Lane County staff and the community were conducted on January 24th and January 25th. The input from the focus groups, surveys, work sessions and open houses were all incorporated into this Draft Plan. A summary of all of the feedback received is available on our website at www.lanecounty.org/strategicplan

This process allowed us to get a sense of what the County is proud of, what it has achieved, how it uses its existing Plan, and what the future challenges and opportunities may be.

On February 27, 2018, the Board received a presentation on the Draft 2018-2021 Lane County Strategic Plan. The Draft Plan incorporated feedback received from Lane County employee and community members in the various input opportunities made available. The Board gave some additional feedback at this time. The Spanish version of the community survey was also open through March 1, 2018. On March 20th, the Board of Commissioners received a Final Draft with all feedback incorporated and approved the 2018-2021 Lane County Strategic Plan.

In the 2018-2021 Lane County Strategic Plan, we not only identified our Strategic Priorities, we also adjusted our Mission, Vision and Values, added our County Purpose and Core Behaviors, which can be found at the top of Attachment A (page 5).

In the Analysis section below, you will find a summary of the progress to date.

B. Policy Issues

There are no policy issues with this update.

C. Board Goals

The 2018-2021 Lane County Strategic Plan has significant impacts to the County Goals as it sets the framework with what the established Countywide priorities and objectives are. Future countywide board agenda memorandums should reflect how they are linking their work back to the Lane County Strategic Plan.

D. Financial and/or Resource Considerations

There are no financial implications of this report back. Enhancing fiscal resilience is an initiative under this Plan.

E. Health Implications

Health priorities and initiatives have been woven throughout the Strategic Plan and individual work plans.

F. Analysis

The County Administrator completed 24 scheduled Strategic Plan Rollout sessions with staff all throughout the County in order to share the message with one of our most important audiences, our staff. In these sessions, the County Administrator spoke about the process we went through, the new county purpose, core behaviors and the priorities. Employee Newsletters have also incorporated questions and answers to some of the frequently asked questions from the rollout sessions.

The Strategic Priorities are largely the same from the last plan, but we have added *Our People and Partnerships* to really highlight the level of focus we have in this area as our people really are our greatest assets. The four strategic priorities are:

- Safe, Healthy County
- Vibrant Communities
- Robust Infrastructure
- Our People and Partnerships

Each of the priorities have Key Strategic Initiatives and Key Activity Areas identified. In Attachment B (pages 6-9), you can see this level of detail.

Another method we established early on in order to make this Plan a collaborative one was to create strategic priority area steering committees made up of the leads for each of the four strategic priority areas. These four steering committees meet quarterly to hear about the progress of each activity area, identify any collaboration opportunities, discuss measures and results, identify challenges or roadblocks, and highlight successes. Leads are then responsible to update work plan activity sheets on a quarterly basis. Attachment C (pages 10-54) is a compilation of all of the work plans for each of the 45 activity areas. There is an overall status identified on every work plan, which feeds into the summary found in Attachment D (page 55).

Finally, each quarter after the four steering committees take place, the directors meet to review progress on the work plans, discuss challenges, next steps, and recommend highlights to bring forward to the Board of Commissioners for quarterly or annual updates.

Attachment D (page 55) is a summary of the overall progress for each activity area. It's a one page document that provides for a nice and easy display of what we are focused on and what the results are. As we complete each quarterly report, we will also update the progress for that quarter.

G. Alternatives/Options

This work session will provide an opportunity to make any specific adjustments to the current Strategic Plan.

IV. RECOMMENDATION

N/A

V. TIMING/IMPLEMENTATION

The Board of Commissioners will continue to get quarterly and annual updates on the progress of the Strategic Plan.

VI. FOLLOW-UP

Staff will be bringing quarterly and annual updates to the Board of Commissioners.

2018-2021 Lane County Strategic Plan

Activity Area Work Plan

Date: 3/20/2019

1	Strategic Priority:	Safe, Healthy County	Sponsor:	Sheriff Trapp / Karen Gaffney
			The Sponsor is the champion of this project and will commit to moving this project forward.	
	Key Strategic Initiative:		Activity Area:	
	Pursue effective diversion, corrections, probation, and parole programs and practices to reduce detainment and incarceration in youth and adults	#2	Emphasize collaborative efforts across public safety, treatment, and human services to address behavioral health issues in the public safety system	
d)	Team Lead: Lieutenant Billy Halvorson / Pauline Martin			
	Team: Lane County Sheriff's Office (LCSO) and Behavioral Health (LCBH), Oregon State Hospital (OSH), PeaceHealth and California Forensic Medical Group (CFMG - a contracted medical provider at Lane County Adult Corrections (LCAC))			
	Project		Project	
	Estimated Start Date:	In progress	End Date Goal:	Jul-19

Inputs: To accomplish our goals, we may need the following resources:

Projects currently under way related to this item: Can add more rows below if needed

Projects	Status	Projects	Status
1. Provide targeted internal Mental Health programming and expand services through WellPath to care for the approximate 240 inmates needing these services.		4. Explore mental health crisis intervention/ jail diversion models utilized in other counties for suitability in Lane County.	
2. Continue LCBH roles within the jail dealing with jail/court related OSH issues, while still maintaining continuity of existing operations and organizational gains achieved in this area.		5. Add additional MH worker capacity in LCAC through the existing medical contract with WellPath to meet more immediate needs of mentally ill within the jail.	
3. Increase continuity of care for inmates going to and returning from OSH, further incorporating front-end assessments as needed upon booking, as well as decrease the number of beds required by providing care locally.		6	

Comments: These projects are a collaborative effort with LCSO, LCBH, OSH, PeaceHealth and CFMG services. Direct communication w/ OSH partners has resulted in most short (1-day) evals being conducted via video conference within LCAC instead of in-person at Salem w/ inmate transports.

Outputs: Accomplishing these projects will result in the following evidence of progress:

Decrease in beds at Oregon State Hospital; Decrease recidivism of targeted jail population

Intended Outcomes:

Intervention and stabilization of inmates with recognized mental health needs will improve behavior while incarcerated; allow for timelier mental health intervention; reduce the Lane County numbers at OSH; and provide cognitive tools for use when released from custody.
