Executive Summary

The fifth annual Project Homeless Connect for Lane County (PHC) was held at the Lane Events Center on March 17, 2011 from 9:00 to 3:00. PHC brings together a broad array of services to one place, on one day, to serve people who are homeless or at risk of homelessness.

PHC 2011 opened its doors to 1,595 guests, the highest number we have seen in our five year history. One third of our guests spent the previous night sleeping outdoors or in an uninhabitable place; 27% were doubled-up with another household; and 22% reported being housed, but at-risk of homelessness.

PHC is possible due to generosity and commitment of private and public partners. For example, United Way of Lane County is the fiscal sponsor and volunteer coordinator, recruiting over 800 volunteers for the PHC 2011. The Lane Events Center donates space rental. Lane Transit District provides free bus rides. Sacred Heart Medical Foundation, Pacific Source and Rainbow Optics are among the large healthcare donors. Lane County and the Cities of Eugene and Springfield are highly involved, valued generous government partners, through funding and staff time, resources and leadership for the event.

People who are homeless are often eligible for assistance but greatly challenged by the pressures of daily survival, the cost of transportation and the difficulty in tracking scheduled appointments (especially if multiple appointments are needed in different locations). The connections created by PHC are remarkable. Most importantly, it is a day of service and caring benefiting some of our community's most vulnerable people. Additionally, it educates, builds trust, and establishes new relationships. PHC for Lane County has a team of dozens of organizers whose planning efforts make the event a great community building activity.

Project Homeless Connect is a day when transformations occur. People with vision problems receive no-cost vision exams and eye-glasses. People who are in pain receive dental care. People get haircuts and walk away feeling better about themselves. The battered women's shelter offers free manicures as a way to open a discussion about a sensitive topic. Bikes in poor condition turn into a safe form of transportation because of the event's bike repair center. Community members who are homeless eat breakfast and hot lunch with service providers and volunteers who are housed. Community volunteers clear tables adorned with centerpieces and white tablecloths for our homeless guests. One social service provider shared that our homeless guests look forward to Project Homeless Connect in the same way that she looked forward to a recent Elton John Concert.

Lastly, community volunteers connected with our guests; 378 service providers and businesses offered 106 categories of services. We had 168 cash and In-kind donors this year. As a result, the 2011 Project Homeless Connect was an effective event for all those who benefited from the array of services provided. Our mission is below:

- ❖ Improve access to services for people who are homeless or at-risk of becoming homeless in Lane County
- ❖ On one day, in one location offer access to basic needs and critical services for families and individuals who are without safe and stable homes
- ❖ Engage and increase the combined involvement of individual volunteers, the business and the non-profit community to work together to address homelessness
- ❖ Provide a venue where the community can welcome its homeless citizens as neighbors
- ❖ Leverage private, corporate, foundation funds and in-kind support to augment local efforts to expand services for neighbors who are homeless in Lane County

Summary Highlights

1,595 *Guests*

805Volunteers

378Service and business providers

106.....Categories of services

168.....Cash and In-kind donors

HOMELESSNESS IN LANE COUNTY

Homelessness: County-Funded Social Services

- 10, 708 individuals in 8,177 households were homeless sought and social services through Lane County Human Services Commission-funded programs during calendar year 2010.
- 896 unduplicated individuals were served at the Egan Warming Center during 21 nights of extreme weather at five faith-based sites this 2010-11 winter season.
- 1,850 homeless students attended public school in Lane County during the 2009-2010 school year(Oregon Dept. of Education)

Cost of Homelessness (updated Fall 2010, Lane County Human Services Commission)

Homelessness affects all residents of Lane County because some people who are without shelter require costly support services:

- \$312 is the average cost of a visit to the Sacred Heart Hospital Emergency Room at RiverBend
- \$737 is the average daily cost of care at the Johnson Unit, Sacred Heart's acute psychiatric care facility, where the average stay is 6.5 days
- \$220 is the daily cost of in-patient detoxification services at Willamette Family Inc.'s Buckley Center, where treatment for alcohol takes 3-4 days and 5-8 days for heroin
- \$134 is the daily cost for "housing" per inmate day at the Lane County Jail
