

# MLK CULINARY ARTS Catering

## Garden to Table

combines the Martin Luther King, Jr. Education Center's Horticulture & Culinary Programs to provide hands-on opportunities for students to learn about sustainable living practices. Garden is planted and harvested by the Horticulture students, who pass their harvest on to the Culinary students. They in turn create healthy & nutritious dishes featured in this menu for your enjoyment.

## The MLK Ed. Center's Culinary Arts Program

We offer youth the opportunity for hands-on experience in all aspects of food service and catering. Students learn how to safely use equipment in the institutional and commercial kitchen. They use these skills to prepare daily meals for the youth in the residential treatment program and for the MLK Education Center. The catering program allows students to be immersed in all aspects of catering. These include taking orders, setting up, taking down, preparing food and serving customers. Students also learn how to provide great customer service. The students become experienced in gardening and sustainable living. They are active in the harvesting, composting, and recycling of much of the foods they use. Each student receives the Oregon Food Handlers Certification training which they use to obtain their Food Handlers Card. This gives them eligibility to work in the food service industry for three years.

The MLK Ed. Center serves secondary students who currently have an active case with Lane County Department of Youth Services. MLK offers wrap-around services and support to youth who have experienced multiple interruptions in traditional school placements. Our mission is to provide our students with opportunities to develop skills needed to be successful in school, work, and our community.

Our chefs and students look forward to creating the perfect meal for your event! If you would like something you don't see on our menu, let us know. We offer a variety of gluten-free and vegetarian meals and snacks – just ask your Catering Coordinator for more information!
